

Complete String Interview Roadmap (LeetCode)

Solve in order. Focus on pattern mastery rather than random questions.

Pattern 1: Frequency / HashMap

- 242: Valid Anagram — Must Do
- 383: Ransom Note — Must Do
- 387: First Unique Character — Must Do
- 451: Sort Characters By Frequency — Good
- 1002: Find Common Characters — Good

Pattern 2: Two Pointers

- 344: Reverse String — Must Do
- 345: Reverse Vowels — Must Do
- 125: Valid Palindrome — Must Do
- 680: Valid Palindrome II — Must Do
- 1768: Merge Strings Alternately — Good

Pattern 3: Sliding Window

- 3: Longest Substring Without Repeating Characters — Must Do
- 424: Longest Repeating Character Replacement — Must Do
- 567: Permutation in String — Must Do
- 438: Find All Anagrams — Must Do
- 76: Minimum Window Substring — Must Do

Pattern 4: Palindrome

- 5: Longest Palindromic Substring — Must Do
- 647: Count Palindromic Substrings — Must Do
- 131: Palindrome Partitioning — Must Do

Pattern 5: String Matching

- 28: Find Index of First Occurrence — Must Do
- 205: Isomorphic Strings — Must Do
- 290: Word Pattern — Must Do

Pattern 6: String Building

- 49: Group Anagrams — Must Do
 - 6: Zigzag Conversion — Good
 - 415: Add Strings — Must Do
 - 43: Multiply Strings — Must Do
 - 443: String Compression — Must Do
-

Pattern 7: Parsing

- 8: String to Integer (atoi) — Must Do
- 165: Compare Version Numbers — Good

Pattern 8: Advanced

- 14: Longest Common Prefix — Must Do
- 459: Repeated Substring Pattern — Must Do
- 686: Repeated String Match — Good
- 214: Shortest Palindrome (KMP) — Hard
- 1392: Longest Happy Prefix — Hard
- KMP: Implement KMP Algorithm — Must Know
- Z: Z Algorithm — Must Know
- RK: Rabin-Karp — Must Know
- M: Manacher Algorithm — Advanced

Revision Order: Frequency → Two Pointers → Palindrome → Sliding Window → Pattern Matching → Construction → Parsing → Advanced Algorithms
